- [ ] Tomorrow's three things are written down
- [ ] Tomorrow's first block is placed
- [ ] Messages that need an answer today are answered
- [ ] Desk and screen closed

WHERE THE DAY WENT

Which block ran longest past its plan, and why?

What came in that was not on the plan?

One thing to plan differently tomorrow:

PLANNED HOURS ON THE THREE THINGS ..... ACTUAL .....

The second column is the point. A plan that never meets the day it was drawn for teaches nothing; a week of plan against actual shows which blocks always run long, and next week's plan can be drawn from that instead of from optimism.
