Write on it here. This file opens as a notebook. Tap a sheet above to jump to it, write on it, and duplicate the page as often as you like. On the Night papers, pick a white or pastel pen.

Use one as your paper. The twelve single-page files in the download are the same sheets on their own. Add one to your app's paper templates and every new page starts on it.

Import. Goodnotes: Documents, New, Import. Notability: press and hold New, then Import, then Files.
