

Printer test page

PRINTED ON _____

Print this page first. In the print dialog choose Actual size or 100%, never Fit to page, then measure the two squares below with a ruler.

1 INCH

25 MM

Both should measure exactly.
Smaller? The dialog is shrinking
the page: set Actual size.

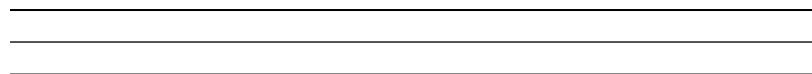

INCHES

CENTIMETRES

LINES: ALL FOUR SHOULD PRINT

Dots gone? Turn off draft mode.

The dashed frame is the half inch every page keeps clear. If any side of it is missing, your printer clips the edge: check the paper size setting.
The dotted lines near the long edges mark the punch zone: every page leaves it empty, so you can hole-punch either edge, print both sides, or use discs.

TRY YOUR PEN: THESE ARE THE ROWS EVERY PAGE USES

Handwriting practice area with multiple rows of dotted lines for pen testing.
